About CPT UI
Collapse Menu
Choose image icon
Metabox callback
Provide a callback function that sets up the meta boxes for the edit form. Do 'remove_meta_box()' and 'add_meta_box()' calls in the callback. Default null.
Supports
Add support for various available post editor features on the right. A checked value means the post type feature is supported.
Use the "None" option to explicitly set "supports" to false.
Featured images and Post Formats need theme support added, to be used.

Custom "Supports"
Use this input to register custom "supports" values, separated by commas. Learn about this at Custom "Supports"
Provide custom support slugs here.
Taxonomies
Add support for available registered taxonomies.
